Alternatives to Total Joint Replacement Surgery

**Advances in Stem Cell,
Platelet Rich Plasma, and
Other Alternatives**

**Thursday,
November 2
7:00pm**

Chadwick C. Prodromos, MD

New Platelet Rich Plasma and Stem Cell treatments that utilize your body's own healing growth factors and anti-inflammatory cytokines are providing safe, highly effective alternatives to joint replacement surgery as well as improving the treatment of sports injuries. The latest techniques and treatment data from a leading orthopaedic surgeon in this field will be presented.
